

Electronic Indie Pop

Dutch Holly is Jen Juniper and Tres Ikner, an electronic indie-pop duo from Prescott, Arizona. Their music marries cinematic synth arrangements, new-wave guitar, vocal harmonies, danceable electronic beats, art-rock eccentricity, and an unusually elaborate two-person live setup. Dutch Holly's recent highlights include the release of a full length album, Persephone's Picnic, a performance at the Musical Instrument Museum, an Arizona Public Media feature, Festival Appearances, and a place on the Cloud Microphones artist roster.
